

Describing a shared table

Review guide · English

Open response: the example is not a unique answer. Check meaning against the criteria; entering text is not enough.

One possible response

La mesa está junto a la puerta. Hay dos sillas y lápices de colores, pero no hay pantalla. Puedes dibujar aquí. La mesa es para compartir y tienes un lugar para tus dibujos.

Evidence in the example

c1: La mesa está junto a la puerta. — Identify the shared table beside the door.

Identify the referent: the reader needs to know who or what you mean.

c2: Hay dos sillas y lápices de colores — Include two chairs and coloured pencils.

Keep the fact that lets the reader act without guessing.

c3: no hay pantalla. — State that there is no screen.

Connect your decision to the need in this situation.

c4: Puedes dibujar aquí. — Recommend drawing at the table.

End with useful information for the next step.

Valid alternatives

Next-to phrases such as *al lado de* or *junto a* are valid. *Pantalla* may be explained as a film screen; do not require one exact synonym.

Feedback to improve

Remove a film recommendation unless you explicitly explain that the needed screen is unavailable here.

Per criterion: NE = no evidence; 0 = not yet met; 1 = partial success or content prompts; 2 = met without content prompts. Record access support without penalising it. No average, official grade or CEFR certification.

Also review: purpose and facts; readable order; language understandable at this level; a justified draft change. Errors that do not block the message may receive support without invalidating the whole text.

Keep your draft. Mark an improvement and explain why it helps the reader; if it already meets the criteria, identify and justify a specific check.

Blank record: criterion / NE–0–1–2 / observed phrase / support used / next step. Keep draft and revision; do not collect personal data.
