

Los errores del hispanohablante que ya se defiende

Ficha 1 de 3 · Ficha 1 · for y since, y el pasado que no admite yesterday

LA REGLA

A este nivel ya no fallas en la gramática básica: fallas en lo que el español dice de otra manera. Los tiempos con desde y hace, los verbos que en español piden que, y ocho falsos amigos que suenan a lo que no son.

¡Ojo! — el fallo típico. «I have lived here since three years» y «I have seen him yesterday». El español mide el tiempo con desde hace y usa el pretérito perfecto con ayer; el inglés separa las dos cosas y no admite ninguna de las dos.

1 «Desde hace» son dos cosas distintas en inglés. Reparte cada expresión.
