

Use of English: completa una palabra

Ficha 3 de 4 · So/such, although/despite y patrones de verbo más preposición.

LA REGLA

En open cloze falta una sola palabra, a menudo funcional: preposición, auxiliar, conector o relativo. Lee la frase completa antes de escribir. Mira qué exige la palabra anterior (interested in, rely on) y qué sigue al hueco: since + punto de inicio, for + duración; so + adjetivo o adverbio, such + grupo nominal. Si aparece to, decide si introduce infinitivo (used to play) o es preposición seguida de -ing (be used to playing). Para relativos, who señala persona, which cosa y where lugar; en pasiva, was + participio. Después relee la frase entera con tu respuesta.

¡Ojo! — el fallo típico. Traducir la preposición de la lengua materna o completar solo por la palabra anterior. En «such a difficult task», a task cambia la decisión; en «so difficult», no hay nombre. La comprobación debe abarcar ambos lados del hueco.

1 Escribe una sola palabra en el hueco.

The film was boring that we left early.

2 Escribe una sola palabra en el hueco.

It was a difficult problem that nobody solved it.

3 Escribe una sola palabra en el hueco.

The report published last year.

4 Escribe una sola palabra en el hueco.

If I more time, I would learn Japanese.

5 Escribe una sola palabra en el hueco.

He apologised arriving late.

6 Escribe una sola palabra en el hueco.

She insisted seeing the original document.

7 Elige so o such según lo que viene después.
